

Call for Papers

Special Issue On

Biotechnology and Genetic Engineering

On behalf of World Applied Sciences Journal, I would like to invite Colleagues & Academic Research Scientists around the world to send their research paper papers in all fields of:

Biotechnology and Genetic Engineering

To be published in a special issue of World Applied Sciences Journal. WASJ is an ISI journal, indexed by Thompson web of knowledge monthly published since 2006 (12 issues annually). This is a previewed journal of IDOSI publishing company with international standard indexed by number of international references. Kindly inform your participants that we shall count all papers presented in **5th International Symposium on Biotechnology held October 4-7, 2009 at University of Sindh, Jamshoro, Pakistan** as reviewed once for the conference accepted articles, for 2nd reviewer may take the potential reviewers from our WASJ referees list. Please prepare your paper according to journal format (WASJ's instruction to authors can be found from our web). We shall take into special consideration for the recommended by the scientific committee headed by our Guest Editor: Prof. Muhammed Umar Dahot

"Muhammed Umar Dahot" <mudahot@gmail.com>

You may send your paper directly to his email or also can submit online for special issue through "WWW.WASJ.ORG" online system. Please make a note to Editor in Chief for publication in special issue on "Biotechnology"
