

INSTRUCTIONS TO AUTHOR

Original research papers, review articles, technical reports and short communications in all aspects of Agriculture, Biological, Information, Health & Life Sciences, Zoology, Humanity, Social and Applied Sciences etc., can be submitted on the understanding that the work is not previously published or under consideration for publication elsewhere.

SUBMISSION OF MANUSCRIPT

It is requested to submit manuscript on-line through website (www.wasj.org). Please register and define unique username and password. For instance use your email address as username and birthday as password.

STYLE OF MANUSCRIPTS

Authors are encouraged to suggest three potential reviewers for their paper. Authors may also specify the names of those they wish to be excluded from the review process for a particular paper; in such cases their wishes will usually be respected, unless, of course, in the opinion of the journal such a request unreasonably excludes all the expertise available to it in that scientific area.

World Applied Sciences Journal's Editor-in-chief ensures that the reviewers act independently and have no conflict of interest in the paper. In case of a complaint, the Editorial board, if it is deemed necessary and appropriate, may ask for additional review(s) before making a recommendation. In all cases, the final decision rests with the Editor-in-Chief. The Editorial Board reserves the right to reject papers that are unsuitable for the journal or cannot adequately be assessed because of a poor standard of English.

Manuscripts should be written in clear, concise and grammatically correct English. Indent new paragraphs. The manuscript should be presented in the following order. The recommended organization of an article is: (i) abstract, (ii) introduction, (iii) materials and methods (or experimental), (iv) results and discussion, (v) acknowledgements, if necessary and funding (in the form of a sentence with the funding agency written out in full followed by the grant number in square brackets) and (vi) references.

Page 1 should contain the article title, name(s) of author(s) and affiliation(s) and the name and complete mailing address (including telephone and fax numbers and e-mail address) of the person to whom correspondence should be sent. The title of the paper should be short, precise and written without any abbreviations. Headings should be upper case and in bold type. Sub-headings should be lower case and italics.

Page 2 should contain an abstract of 100-200 words, without any citation and footnotes. A list of four to six key words, of which at least three of them should not be appear in the title of the paper. Other footnotes, identified by superscript Arabic numerals, should be limited to dedications, an identification of the corresponding author and an author's present address.

TEXT

Files should be formatted double-spaced with no hyphenation and automatic wordwrap (no hard returns within paragraphs). Please type your text consistently, e.g. take care to distinguish between '1' (one) and 'l' (lower-case L), and '0' (zero) and 'O' (capital O), etc. Articles should not exceed 6 printed journal pages. The number of figures and tables enclosed should be decreased as much as possible and the legend to them should not be repeated in the text.

TABLES

Tables should be numbered with Arabic numerals (Table 1, Table 2, etc.) and cited consecutively in the text. The tables must be created with the table-function of MS-Word and should be enclosed on separate sheets of paper at the end of the manuscript, bearing the same number as in the text. Units (SI) must be clearly indicated for each of the entries in the table. Footnotes to tables should be identified by superscript lower-case roman letters and placed at the bottom of the table.

FIGURES

Figures should be cited in the text by Arabic numerals (Figure 1, Figure 2, etc.). Figures should be supplied as electronic files and should be enclosed on separate sheets of paper after tables. Also high-quality hard-copy of all figures and tables are needed. A figure legend should be supplied. Authors will normally be required to pay for colour illustrations and charge for handling and printing.

MATHEMATICS

In-line equations should be typed as text. The use of graphics programs and 'equation editors' should be avoided. Use of 'Microsoft equation editor is recommended.

References are often the cause of many proof corrections, and inaccuracies hamper inter-journal linking and Medline links in the online journal. Please check the list carefully before submission. WWW URLs are permitted only as footnotes in the text, not in the reference list.

ABBREVIATIONS, UNITS ETC.,

Authors should follow internationally agreed rules especially those adopted by the IUPAC-IUB Commission on Biochemical Nomenclature (CBN). The journal will essentially follow the rules defined in the IUPAC Manual of symbols and terminology for physico-chemical quantities and units (Butterworth, London), 1970.
